Thesis Assessment

Thesis title

Student: Programme:

Supervisor: Department:

I. Assessment of thesis content

scale: from 1 (the lowest) to 5 the highest) or 'n/a' (not applicable)

	n/a	1	2	3	4	5
The subject of the thesis corresponds to the field of studies						
Raising the thesis' subject was justified (the topic is important, timely, original)						
The aim of the thesis was defined correctly						
The construction of thesis is correct (structure, content, completeness, and order of chapters)						
The content reflects the undertaken subject and the specific aim of the thesis						
Review of the sources was carried out in a reliable manner (correct type, scope and number of books in the Polish language, in foreign languages, timeliness)						
Appropriate research methods and tools were selected						
Research was carried out in a proper manner						
The formulated conclusions are logical, correct and complete						
Formulated conclusions arise from the presented research material						
The thesis has utilitarian values (presents e.g. important recommendations, an original empirical model, a practical business project, etc.).						
The aim of the thesis was attained						

II. Formal assessment of thesis

scale: from 1 (the lowest) to 5 (the highest)

	1	2	3	4	5
The thesis was written in the correct language (terminology of a discipline, style, grammar, spelling, punctuation, units of measurement)					
The thesis was written in accordance with accepted editorial standards (content, bibliography, source footnotes, tables, figures, formulas)					

Other comments or indications (e.g. on posted hypotheses or research questions, in case of extremely negative evaluations their justification is need):

.....

.....

.....

.....

.....

III. Possibilities of using thesis:

The thesis or its fragments (e.g. research results) are suitable for:

- publishing as a scientific paper
- making available for institutions
- other uses
- commercialization
- using in teaching

Detailed proposals for the use of the thesis:.....

.....

The thesis should be submitted to competitions for the best theses: yes no

IV. Final evaluation of thesis

The ability to prepare written work independently suitable for the studied field has been achieved: yes no

Final grade granted:
