### **Recommendation for postgraduate studies Business English**

In the academic year 2020/2021, I had the pleasure of participating in the Business English course at the University of Economics in Katowice under the guidance of Prof. Maciej Mitreęga and Dr. Anna Wieczorek. I recommend this course to everyone looking for an opportunity to improve their business knowledge.

The studies are definitely the right choice for all those who want to gain new skills in the dynamically changing labor market and understand the mechanisms and processes involved in it. It is also the appropriate course for those wishing to start a business and successfully develop their own business in the international arena. An important aspect of the course was understanding intercultural differences and their practical implementation in communication. The knowledge was taught in an understandable, orderly way by experienced practitioners representing various fields of activity. The programme of classes was based on practical models showing how to effectively use the acquired knowledge.

What is important, the studies are suited to the current trends on the market. Moreover, I would like to emphasize that the practical English learning has been applied in my current professional role. Choosing this course turned out to be a good investment.

Yours sincerely,

Dominika Rzepka
