No.	Teaching methods	Description	Number of hours	
			Full-time study	Part-time study
1.	Project preparation	Collecting data, selecting information, preparing project	7	4
2.	Presentation	Public, oral, group presentation of the most important findings of the project	4	2
3.	Interactive lectures	Multimedia lectures presenting key theoretical issues	4	3
Total			AS: 15	AN:9

B. Self-study:

No.	Learning methods	Description	Number of hours	
			Full-time study	Part-time study
1.	Project preparation	Working on the project, preparing presentation	20	20
2.	Case study solving	Analysis of selected examples	20	20
3.	Literature study	Searching for required information	20	26
Total			BS: 60	BN: 66

Total AS+BS = 75

Examination (E) = 0

Total AS+BS+E= 75

Total AN+BN = 75

Examination (E) =0

Total AN+BN+E = 75

14. Key words: investment decision, financial decisions, financial instruments, financial management**15. Course content:**

1. Selection of the topic of the project: students have the opportunity to choose the most interesting issue (according to their opinion) related to the use of financial innovations / alternative investments. Then they analyze various theoretical aspects of the selected problem referring to the situation of a particular entity (case study analysis).

Students' written projects prepared in the group should contain a description of the theoretical aspects of the problems and the results of the empirical research

2. Brief theoretical introduction to the problem related to the application of new financial solutions in financial and investment decisions of entities.

3. Discussion of the principles of work organization and project assessment criteria (requirements for the content of projects).

4. Team work related to solving case study and preparation of the written version of the project and presentation of research results.

5. Presentation of projects.

6. Discussion evaluating research results of individual teams and final evaluation of projects.

16. Course learning outcomes as related to the learning outcomes of the major and methods for assessing student attainment

Intended learning outcomes of the major / Symbols	Intended learning outcomes of the course	Methods for assessing student learning outcomes	Documentation
<u>Knowledge</u>			
FAB2_W02#	1. The student knows and understands the main determinants of changes in the field of finance, related to the creation and the application of new financial instruments in particular	Project Presentation	Electronic version of project and presentation
<u>Skills</u>
