Introduction	9
Acknowledgement	11
Part I	
New environment of higher education institutions	
University in the internationalisation process based on experience of the Jan Kochanowski University in Kielce (<i>Marcin Szplit</i>)	15
New technologies in the study of shared musical heritage from local to global (<i>Pilar Barrios Manzano</i>)	21
Sustainable student recruitment strategies for international students – case study of the School of Engineering at SRH University Heidelberg (<i>Katja Kuhn</i>).....	30
Harvesting the collective intelligence in learning environment (<i>Saad G. Yaseen & Khalid Al-Omsh</i>)	41
Part II	
Innovations in higher education processes	
In-class simulation games – student learning in international environment (<i>Justyna Matysiewicz</i>)	51
Innovation in quest for quality: Teaching & learning in the 21 st century (<i>Justyna Gieżyńska & Klementyna Gieżyńska</i>)	61
Action learning in enhancing the student engagement (<i>Katarzyna Rupik</i>)	73
Innovation beyond the cell phone: How principals utilise the use of technology in schools (<i>Mohammed Saleh Banihani</i>)	85
Increasing the quality of research by taking advantage of literature systematic review on the example of household financial behaviour study (<i>Jagoda Gola</i>)	94
Visual communication – an opportunity with a handle? (<i>Karina Cicha</i>).....	107
Part III	
New media in higher education market	
Media tools in university education in the perspective of Norwegian and Polish experience (<i>Andrzej Pawluczuk, Karolina Racis & Małgorzata Olchowik</i>).....	121
New media implementation in the contemporary education process (<i>Katarzyna Bilińska-Reformat & Anna Dewalska-Opitek</i>).....	132
Application of new media in financial education on the example of project implemented by NBP (National Bank of Poland) (<i>Małgorzata Kieźel</i>)	141
Using new media in teaching in higher education (<i>Patryk Mączko</i>)	150
New media as a recruitment tool in the higher education decision process. A case study (<i>Ionela Mocan (Maniu) & George C. Maniu</i>)	159
Electronic media management – use of cloud computing in students of higher school (<i>Luis Ochoa Siguencia, Gilberto Marzano & Damian Herman</i>)	164

Part IV

New tools and technologies in higher education market

Assessment of the use and usefulness of e-learning platform in higher education on the example of the Moodle platform used in the University of Economics in Katowice (<i>Aleksandra Burgiel & Izabela Sowa</i>)	181
Designing a Wiki for artistic collaborative learning among a team of teacher training students (<i>Juana Gomez Perez</i>)	203
Telecare and telemedicine systems as an educational tool in the implementation of programs of study courses: Nursing and occupational therapy (<i>Dariusz Luboń & Janusz Wietecha</i>)	211
The technological support for teaching methodology in terms of Bloom's Taxonomy (<i>Tomasz Eisenhardt</i>)	217
Use of online collaborative writing tools by students of higher education (<i>Luis Ochoa Sigüencia, Martin Gomez-Ullate Garcia de Leon & Damian Herman</i>)	229

Part V

Social media in higher education

Social media usage in higher education practice (<i>Agnieszka Marie & Marta Grybś</i>)	245
Analysis of higher education institutions' brand presence in social media – case study of the University of Economics in Katowice (<i>Marek Kiczka & Edyta Lachowicz-Santos</i>)	254
Blogs as “just-in-time-teaching” method in virtual space (<i>Ewelina Twardoch</i>)	268
Blogs as means for promoting active learning: A case study of a Thai university (<i>Dorota Domalewska</i>)	278
Opportunities and threats of social networking in higher education (<i>Piotr Rodak & Wojciech Kubasik</i>)	289

Part VI

Students and teachers toward new media in higher education

New media in higher education and values for students on emerging markets (<i>Sławomir Smyczek</i>)	297
Students' media literacy – the case of students of the University of Economics in Katowice (<i>Anna Adamus-Matuszyńska</i>)	313
The role of education in the information society. Developing information literacy among students and the new methods of teaching (<i>Rafał Zdyb</i>)	321
Online marketing communication of higher education institutions and consumers “hate” phenomenon (<i>Agnieszka Put & Marta Grybś</i>)	328
E-learning in higher education – perception and use of technology supported learning by economic school lecturers (<i>Michał Bartoszewicz & Daniel Gajda</i>)	341
Role of interface agent in decision-making process – analysis of opinions of students of Econet project (<i>Edyta Abramek & Mariia Rizun</i>)	358

Part VII

Higher education institutions and labour market

IT business and science sector ecosystem vs. holistic knowledge relations model in selected cases (<i>Izabela Sztangret</i>)	373
--------------------------------------------------------------------------------------------------------------------------------------	-----

Soft skill competency of the futures employee (<i>Andrea Solyom, Boglarka Eisingerne Balassa & Zsuzsa Stion</i>)	385
Evolution of entrepreneurship and entrepreneurship education – the case study of Extremadura Region in Spain (<i>Martin Gomez-Ullate Garcia de Leon & Luis Ochoa Siguencia</i>)	402
